

1 INNOVATION FROM ALL

■ Guiding Questions

- Are there flexible groupings happening throughout the day?
- Are there flexible spaces to learn and create?
- Is teacher collaboration a priority? Are there set times and places for teachers to collaborate?
- Are there a variety of resources available to students?
- Is there freedom for students to own their learning?
- Are students able to work on different projects at the same time?
- Are students able to collaborate with each other?
- If so, how are students collaborating? Can they collaborate with students and adults outside of their own classroom?
- Are teachers more facilitators than 'bankers'?
- Which tech programs could you utilize to encourage collaboration?
- How could you build systems for teacher collaboration with technology? Student collaboration?
- How will you determine which tech programs are most relevant/useful?
